Dear Parents,

Our **late fall driver's education options are now open for registration!** Driven School of Driving is offering two different options to meet the needs of busy families and different learning styles. Below is an overview of each option, along with direct links for additional details and registration.

Fall Online

This option is a great choice for students who want to complete their classroom instruction online while working through the course at their own pace.

Students complete the online coursework independently and schedule their behind-the-wheel driving lessons with an instructor. This option gives students the flexibility of online learning while allowing them to work toward completing driver's education during the fall.

Course Start Date: October 29,2026

Late Fall Online

Fall Flex – Maximum Flexibility

Fall Flex is designed for students and families who need the most flexibility with their schedules.

Students complete the classroom portion at their own pace online and can work through the course around school, activities, sports, and other commitments. This is a great option for students who are busy and want more control over when they complete their driver's education.

Course Start Date: Flexible
